Linus White and Milford Riggs are arranging to open an ice cream parlor in Dr. Marshall's building, north of the Register office, about the middle of May.

Henry Basler has leased a butcher shop in De Soto and will go into business there. Mr. Basler is a good butcher and a good citizen. We certainly wish him well.

Married—At the courthouse, Ironton, Mo., April 18th, 1917, Jim Shaney, of Vulcan, Mo., and Mrs. Annie Warren of Annapolis, Mo. O. W. Roop, Judge of Probate, officiating.

Hon. Frank H. Harris, of Rolla, was in Ironton Monday, being an attorney for R. Jennings, charged with murder of Oren Greenwood, in the west end of the county, last October.

Our old friend, Fred. Kindell, Sr., was stricken with paralysis at his home in west Ironton Sunday evening at 7:30 o'clock. His condition is still serious, but we hope for an improvement.

Elsewhere is reproduced an article from the Poplar Bluff Republican telling of the marriage of Mr. Fred J. Schach and Miss Myrtle Mangold, former valetians, friends in the valley offer congratulations and very best wishes.

D. Edgar Fletcher made a trip from St. Louis the valley in a new Ford car last Saturday. With him were his sisters, Misses Alma and Florence, and Mrs. Dr. Wick and little daughter. The ladies returned to St. Louis Sunday afternoon.

A. C. Ames, the horse trainer for Mr. Smollinger at Iron Mountain, died last Saturday afternoon of pneumonia. The deceased was 57 years of age and one of the greatest trainers of harness horses in the nation. The remains were taken to Illinois for interment Monday.

Mr. E. A. Hart, manager of the lead belt group of the Missouri Public Utilities Company, was here last Friday for the purpose of concluding arrangements for the purchase of the local light plant by the Missouri Public Utilities Company. This corporation owns the light plants in De Soto, Festus, the Lead Belt, Cape Girardeau, Sikeston, Bismarck and other towns in Southeast Missouri. They will take charge of the Ironton plant May 1st. Mr. Hart informs us that we will be given the best service possible and a day current is promised in the near future. This is, indeed, welcome news.

A card from the Register's good friend, Dr. Hugo Summa, who has been spending several months at Santa Monica, California, advises us that he expects to leave the Golden State to-day (Wednesday) for St. Louis. We hope to see him in the valley again soon.

Mr. E. E. Evans, general manager of the Bellevue & Western Railroad, was in town Tuesday. Mr. Evans tells us that the road has had a big business recently. In three weeks sixty cars of ties and lumber were shipped from Bellevue by Mersall & Allee alone—22,000 ties and over 170,000 feet of lumber. Some business.

Commissioner E. L. Barnhouse was in Ironton a couple of days the past week. Dr. Barnhouse informs us that the office of the Food and Drug Department will remain in St. Louis until the new capitol building at Jefferson is completed about June 1st. Then his headquarters will be moved to the capitol city and most of his time will be spent there.

From the Farmington News: "Dr. D. Appleberry and J. O. Campbell, of Bellevue, drove over yesterday and the former bought four pure-bred Duroc-Jersey female pigs from A. J. Young. They are fine young animals and cost the Doctor from \$15 to \$30 each. Their grandsire is the famous Pathfinder, the highest priced Duroc male in the country."

The editor is indebted to Rev. John Adrian for an invitation to attend the Corner Stone Ceremony of Corpus Christi Church, Jennings, Missouri, Sunday afternoon, May 6th. His Grace, Archbishop Gleim, officiating. Valley friends will be glad to hear that Father Adrian has been most successful in his present field in the outskirts of St. Louis.

The following from Iron Mountain, under date of April 23d, appeared in Monday's St. Louis Globe-Democrat: "To-day witnessed the opening of the lake summer resort and 365 automobiles conveyed more than 1000 persons here. Many St. Louisans are among those registered. Much work is being done to make this the most attractive summer resort in the Ozarks."

The Register Saturday afternoon had a call from three former residents of the valley, Messrs. Jos. F. J. P. and G. B. Lindsay, of St. Louis, sons of the late Col. James Lindsay. The former is practicing law, J. P. is manager of the mail traffic for the Santa Fe system and G. B. has a similar position with the Wabash. They were here just a few hours to see old familiar faces and places.

Mr. Forshee, president of the Ironton school board, informs us that the only departure that has been made from the original plans for the high school building is in the construction of the roof. After considering the matter thoroughly the board deemed it wise to make an additional appropriation of \$145 and have a roof supplied by the John Manville Co., and guaranteed for fifteen years.

W. L. White, who lives on Marble Creek about ten miles south of Ironton, is on the grand jury this week and was a caller at the Register office Monday. While here Mr. White showed us a twenty-five cent piece of paper money which he recently found in going through an old pocketbook belonging to his father. It was of the kind that went out of circulation in the latter seventies and silver coin has since been used in lieu thereof.

Mr. Geo. C. Howes was here from St. Louis last Friday and arranged for the purchase of nearly 100 acres of land of the Methodist Assembly tract in Arcadia. This leaves the Assembly with about eighty acres of land in a block adjacent to the Tabernacle and Dining Hall. With the funds secured from this sale the debt on the Assembly grounds is reduced to \$1100, and it is thought this will be paid by January 1st next. A most desirable condition of affairs.

Arthur Nall, formerly clerk in the office of Secretary Roach, has been appointed in the department of "soft drinks" in the office of State Beer Inspector Mosby. Mr. Nall's former home was at Ironton. He has been a resident of Jefferson City eight years and is recognized as a competent clerk.—Capitol City News.

Arthur's many friends in the old home are glad to hear his preference and have no doubt that he will "make good" on the new job, whose duties he will take up May 1st. The position pays \$1800 a year.

Mr. Geo. C. Howes of St. Louis has quite a number of men employed on his place in Russellville, under the supervision of Chas. J. Tual. A large poultry house is just about completed and a barn is under way; other buildings contemplated are a fine residence, greenhouse, garage and creamery. A number of men will probably be kept busy throughout the year. Mr. Howes is considering the proposition of shipping "chats" here from the lead country with which to build his roads.

Mr. Geo. Stark, who lives south of Arcadia, makes the suggestion that the students in our public schools should be taught a fire drill, so that they could get out of the building quickly and in order in case of an emergency. The consternation and confusion in marching out of the school house on the occasion of the earthquake shocks a couple of weeks since Mr. Stark says clearly demonstrates the need of some such training. The suggestion seems a wise one.

From the Bismarck Gazette: "From reports that reach us Iron Mountain lake will soon be the scene of great activity. The lake is to be cleaned out and a driveway built around the entire lake. Land enough will be

cleared so that 400 tents can be pitched. An up-to-date restaurant is to be opened with Gas Thayer, lately of Sparta, Ill., a son-in-law of William Mester, in charge. Another one of the conveniences is to be an ice-cream parlor, which will be in charge of Earl Wright of this city."

A movement to procure street oil for a portion of Main Street has been begun, and all parties doing business or residing along that district which is to be oiled will be called upon to contribute. Last year's contributions will be used as a guide, but more money will be required this year because of the advance in price of oil. The success of the undertaking will depend largely upon liberality of those who are to be benefited. It is expected that the subscription list will be presented before the end of this month.

On last Saturday Mr. Taylor completed the job of bringing a drive of ties off of the headwaters of Middle Fork, the ties being banked at or near Black. Monday Mr. Taylor moved the camp and men up on Brushy and will bring the ties down that stream while there is plenty of water. The ties off of this stream will also be banked at Black. Mr. Taylor informed us that the big drive this year would probably not be started until after July 4th, when the necessary labor will probably be more easily secured and the cost and trouble of feeding the men will not be so great on account of potatoes and other vegetables being more easily secured at that time.—Centerville Outlook.

Again I am indebted to my friend, Frank Seville, Esq., of Corona, Cal., for a box of mighty fine oranges, received here last Wednesday. While the present, in itself, is a very acceptable one, the feeling behind its sending is peculiarly grateful to me. Mr. Seville was, in the happy days gone by, a resident of Ironton, and an intimate neighbor and friend, and I have never ceased to regret the business necessity which impelled him and his to depart from us. Since then we have experienced the cheerless mutations of life—have known our sorrows and our joys—but the remembrance of the old days remains a pleasing contemplation. May many years still to come be good to my friend!

Mr. Edward F. Goltra, of St. Louis, president of the Mississippi Valley Iron Company, came to Ironton in his private car Saturday night on train No. 17. With him were his private secretary, Miss Irene Bohannon, C. W. Marshall, chemist, and W. H. Ohsong, manager of mines. The party spent Sunday morning on Pilot Knob looking over the ore unearthed by the recent prospecting there. It may be that the Mississippi Valley Iron Company will do some mining on Pilot Knob. If not the Big Muddy Coal & Iron Company will more likely put a force of men to work there in the very near future. The prospecting which has been going on there for several months has disclosed a large body of fine ore and with present prices of iron there is no doubt that mining will commence soon. Mr. Goltra and his party went to Vulcan Sunday noon to inspect an iron property there.

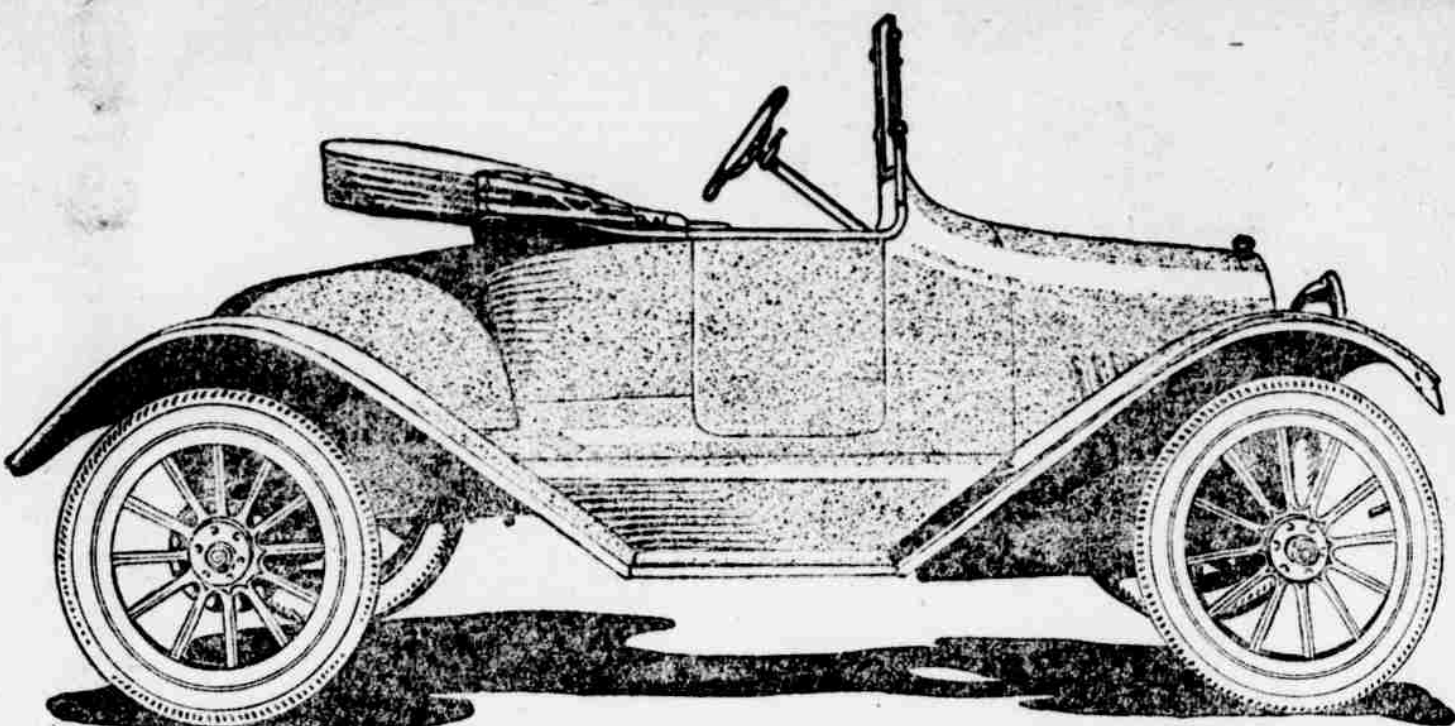

Joseph E. Kessler Plante died at his home in Arcadia, Mo., Friday, April 20, 1917, aged 62 years, 5 months and 28 days. The deceased suffered a stroke of paralysis about a week previous to his death, from which he never regained consciousness. Mr. Plante had been a resident of the valley about seven years, coming here from Chicago with a number of other purchasers of Murrell-Crum land in 1910. For the past three or four years he conducted a barbershop in the Academy of Music building in Ironton and previous to his location in the valley was the proprietor of a large shop in South Chicago. Mr. Plante was an honorable man and good citizen. He tried to do what he thought was right and in all his dealings with his fellow men followed the golden rule. The funeral occurred from St. Joseph's Chapel, Arcadia, Sunday afternoon and interment was made in the K. P. cemetery. Peace to his ashes. The bereaved widow and other relatives have the sympathy of the community in their affliction.

Circuit court convened Monday morning. Judge Dearing charged the grand jury and named S. P. Ringo foreman. The first case on the docket was State vs. R. Jennings, murder. Because of the absence of important witnesses the state asked for a continuance. Of three physicians who had been subpoenaed Dr. H. Ramming, of Goodwater, was the only one who had put in an appearance, and that morning he had a well developed case of measles and was unable to be in court. The case was continued until the next regular term of court in October, and attachments were issued for Drs. L. E. Safford, of Doyle, and L. B. Donahew, of Davisville, the two physicians who had neglected to respond to their subpoena. The latter made his appearance in court on the arrival of the noon train Tuesday. He explained to Judge Dearing that he had left his home in Crawford county in time to reach here Monday but that he was taken "sick" in St. Louis and unavoidably delayed. On his promise not to get "sick" at the next term of court he was allowed to depart on payment of the costs of the attachment. Monday afternoon Chas. Dickson entered a plea of guilty to the charge of cruelly beating a mule, and was fined \$50 and costs with a stay of execution until the next term of court. The case of State vs. Lon Chapman, assault, was continued. Frank Kennedy, carrying

concealed weapons, nolle prosequed. A jury was empaneled Tuesday to try the case of John Propst vs. H. C. Jackson, trespass and damages; the issues were found for the plaintiff. Court will probably be in session until the latter part of next week. It is not likely that there will be many jury trials.

Any one with defective eyes or in need of glasses consult Dr. Burford, at Arcadia Valley Drug Store—one week only.

Pilot Knob Active Again.

(Bonne Terre Register.)

After many years of inactivity, work has once more begun at Pilot Knob; that is the Big Muddy Coal & Iron Co. is now engaged in sinking a shaft, or a number of shafts to test the ore value of the old mines. A crew of men was here the latter part of the week and got the old laundry boiler which the mining company bought of Lee Campbell; the boiler was taken to Pilot Knob to be used in development work. It is understood the company which is now developing the property believes that deep mining may prove profitable; instead of doing surface mining they will go down 80 or perhaps 100 feet, or even more. If ore should be found in sufficient quantity it is said that an expensive plant will be put in for getting out and handling the ore.

Great preparations are being made to put in a big crop of everything. I don't think there will be half a wheat crop. I was talking to a big farmer, near Charleston. He said he had 500 acres in wheat, but he would plow up 200 acres and put in corn and cotton. He said on black land wheat is very good, but on the sandy land poor. They are planting lots of melons now. They are fertilizing in every hill. The cost of living is hurting the farmers more than any one else can see.

flour sell there at retail from \$3.50 to \$4 for a 50 lb. sack; bacon, 25 to 30 cents; lard, same.

I was in Libourne one night. That is quite a progressive town. I heard several whistles at six o'clock in the morning. The town is beautifully laid off, one mile square, and as level as a plank floor. Has a high school with seven teachers. I called at the home of L. D. Marlowe, son-in-law of C. L. Stevenson. He is doing a good business there for B. Johnson The Co. They have a fine baby boy, two years old.

I stopped at Farmington on my way to Flat River. Called on the Giesing Milling Co. They are selling their best flour at \$13 a barrel; it is retailing in Flat River at \$4 for 50 lb. sack. The government, if it can, should cut down the high cost of living. It is all speculation. While in Farmington I spent a few hours with my old friend and comrade, J. M. Morris. His daughter-in-law, Mrs. W. L. Morris, came in while I was there with her baby girl. She is a fine baby, full of life, and very pretty.

I was at Annapolis and Sabula Saturday. Chas. E. Reich is shipping lots of mining props. Add Reese is handling lots of ties and lumber. He says his handle factory is full of orders.

Well, it looks like our boys will have to "shoulder arms." If I was a little younger I would not mind taking a crack at them.

So, boys, stand by your cannon, let ball and grape shot fly, Trust in God and Wilson And keep your powder dry!

Judge Schmidt is in St. Louis. I understand he has bought a new car. Miss Jennie Sellinger from Arcadia is visiting her aunt, Mrs. W. H. Hughes.

E. W. Graves met a delegation of

business men from St. Louis, who came in a private car, at Vulcan Sunday. They are going to start up the iron mines, near Vulcan.

Fred Farr shipped a car of hogs to St. Louis last week.

Ed Reed has returned home from Cape Girardeau, where he has been attending the State Normal.

Misses Myrtle Lovelace and Leah Wallis went to Farmington last week to enter a business college. They attended school in Bismarck during the winter, but the school there has been sold.

Mrs. Goldie Hicks and children from New Mexico are visiting her father, A. Medley.

A number of young friends of Miss Eunice Morris from Piedmont spent Sunday here with her.

Prof. W. E. McKee, with a number of high school boys, went to Piedmont Saturday to attend the athletic contest.

Miss Lillie Lovelace has returned to Garwood.
